

# NVG PhD WORKSHOP

Wednesday November 29<sup>th</sup> 2017

## The use of computer-assisted quantification of behaviour in behavioural Biology

Venue: Hildegard room, Kontakt der Kontinenten, Soesterberg  
<http://www.kontaktderkontinenten.nl>

9.50 – 10.00 Welcome and introduction

10.00 – 11.00 **Prof. Andrew Straw**

*University of Freiburg, Germany*

**The use of computer-assisted quantification of behaviour in behavioural Biology**

11.00 – 11.15 Coffee & Tea

11.15 – 12.00 **Tiphaine Bailly**

*University of Groningen*

**Should I stay or should I go: mechanisms and evolution of optimal group size determination**

12.00 – 12.45 Lunch

12.45 – 13.30 **Estefania Velilla Perdomo**

*University of Amsterdam*

**Impact of noise on vibrational communication**

13.30 – 14.15 **Meike Zemihn**

*Leiden University*

**Tracing the origins of language - syntax and call variation in common marmosets**

14:15-15:00 **Astrid Rox**

*University of Utrecht*

**Threat, treats and cheats: Social behaviour and intelligence during male immigration in captive macaques.**

15:00 – 15.30 Coffee & Tea

15.30 – 16.15 **Jing Wei**

*Leiden University*

**phenotypic plasticity of mating signals and preferences in zebra finch**

16.15 – 17.00 **Nina Bircher**

*Wageningen University*

**The role of male song in mate choice in the Great Tit**

17.00 – 17.45 **Annebelle Kok**

*Leiden University*

**how predator-prey interactions in the marine environment are affected by anthropogenic sounds**
